HB-WG Series

HOR Wire Guards

DESCRIPTION

The HOR wire guards for fluorescent high bays are constructed of 11 gauge tempered steel wire, resistance welded in a standard 2.0" x 2.5" rectangular grid pattern with standard lengths of 48". Wire guards can be attached to the fixture allowing hinging from either side. Standard wire guards have a protective coating which is corrosion resistance.

NOTES

Product performance may vary depending on model and end user environment.
