SERIES SPECIFICATIONS

The TAF30G green fishing light emits a green light that shines through the water. Plankton and other small marine prey are naturally attracted to the colored light. As they gather, larger fish will be drawn to feed on them, thus creating a natural food-chain reaction that benefits the sport fisherman by enticing larger fish to the area

CONSTRUCTION

Watertight Cap Material
Rubber

Submersible Depth
16 Ft.

Cord Length
29 Ft.

Connection Type
Clips

For use in
Salt/Fresh Water

ELECTRICAL SPECIFICATIONS

Input Voltage
12-24V DC

LED Quantity
70

Color Range
Green 519-525nm

Beam Angle
360°

Lumens
1290

CERTIFICATIONS/WARRANTY

Warranty

Guaranteed for one year from the purchase date of the product, against mechanical defects in manufacturing.
