SERIES SPECIFICATIONS

LC-WL SERIES

Wireless Lighting Controls

902MHZ lighting controls - when paired with LED technology, provides maximum energy savings potential.

FEATURES AND SPECIFICATIONS

Intended Use - Wireless light switches are powered by kinetic-harvesting technology. A press of the switch is converted into a small amount of electricity, which transmits a wireless radio-frequency signal to ILLUMRA controllers and other devices. Use the switches to remote control the lighting control relays without running wires to the switch location.

Controllers - Controllers are engineered to receive radio transmissions from ILLUMRA Self-powered Wireless Light Switches and Sensors. Control virtually anything that turns on and off by simply wiring a controller between the power source and the device.

PAIRING AND COMMISSIONING INFORMATION

These Enocean (902MHZ) controls can be managed and operated with the corresponding Mobile Commissioning Gateway and App.

General pairing and commissioning can be done via the Simple Linking function. Please see installation guide for more information.

ORDERING INFORMATION

LC-WL-E901
 0-10V 5A FIXTURE
 CONTROLLER, 100-277VAC

0581-1972

Illumra Part #:
 E9X-DUV-10VTP-FX

LC-WL-E902
 SINGLE ROCKER DECORATOR
 STYLE BATTERY

0581-1975

Illumra Part #:
 E9T-S1AWH

LC-WL-E903
 DUAL ROCKER DECORATOR
 STYLE BATTERY

0581-1978

Illumra Part #:
 E9T-S2AWH

LC-WL-E904
 OCCUPANCY SENSOR,
 HIGH BAY, 902MHZ

0581-1999

Illumra Part #:
 E9T-OSH

LC-WL-E905
 MOTION DETECTOR WITH
 ILLUMINATION SENSOR

0581-2002

Illumra Part #:
 E9T-MDS

LC-WL-E906
 8-CHANNEL LOW
 VOLTAGE RELAY RECEIVER

0581-2005

Illumra Part #:
 E9R-R04FP-8

LC-WL-E907
 600W PHASE CUT DIMMER:
 ER6CD-AU-277

0581-2008

Illumra Part #:
 E9X-ER6CD-277

LC-WL-E908
 600W PHASE CUT DIMMER:
 ER6CD-AU-120

0581-2011

Illumra Part #:
 E9X-ER6CD
